Students at Deeksha STEM School, Judicial Layout exhibited a splendid world of science, art and math at most awaited event - "PRADARSHANA"

Pradarshana

9th November, 2024

Children from Nursery to grade 9 worked on projects, gave presentation on various topics demonstrating their presentation skills and to what degree they have achieved expected learning standards or learning objectives. Parents interacted with the kids and were delighted to see their kids present their projects with confidence.

Pradarshana

The buzz of excitement filled the air as I stepped into the vibrant world of our school's Pradarshana. The corridors were transformed into a kaleidoscope of colours, and creativity, showcasing the collective efforts of students from every subject. As I wandered through the maze of displays, I felt a surge of pride and anticipation, eager to explore the wonders that lay ahead. The science section was a marvel of innovation. The math section was equally impressive, with geometric patterns, mathematical puzzles displayed with artistic flair. The language section was a feast for the senses. Models, short stories, and dramatic performances brought literature to life. The social studies section explored, geographical wonders, and current affairs, broadening my understanding of the world.

Throughout the exhibition, I was inspired by the dedication and hard work of my teachers. They had guided us, encouraged our creativity, and instilled in us a love for learning. Their unwavering support was evident in the quality of the exhibits and the confidence with which we presented our work. I am grateful for their mentorship, which has not only shaped my academic journey but also inspired me to reach for the stars.

As the projects drew to a close, I left with a sense of accomplishment and a renewed appreciation for the power of education. It was a celebration of knowledge, creativity, and teamwork, and I am proud to have been a part of it. The memories of this unforgettable experience will stay with me forever, reminding me of the boundless potential within each of us.

Pradarshana Feedback from parents

Innovative & Practical application of visual imagination & Fundamental learning. Great effort by Devisla - dry

Teachers effort are more, all the students are communicating very firmly and their understand the project what they have done good way of learning. Overall good.

Very well organized Event. Thanks you so much. (Mamatha)

Very nice and well organization. Thanks for the wonderful show. [Lithamathi Sumanthak]

Very good Initiative for Children - to be exposed all activities. Keep the good work.

Very well organized. I think You are making towards You "CONCEPTUAL LEARNING". Keep the good work.

Very good initiative, kids enjoyed lot. very beautiful Thankyou.

* Excellent project works especially a kid Farzan with outstanding presentation.

Thanks for Organizing the event. Nice to see Kids Confidence.

Thanks for presenting the models - Kanika's Father

Nice Show, there is still scope for improvement.

Event is very well organized & Kids are trained good. Overall it's a nice experience. (Tushara R Gupta)

Nice Show, kids enjoy it alot.

Really the very good, honest & sincere work shown the all parents.

Parents really are that children explained and displays very well.

Teachers - excellent. All students are doing very well. It was a very good experience.

All the kids did the fantastic work and also they explain every bit and clear. Wonderful!

The kids have prepared well & spoke very nicely. Proud to see them speak so confidently.

Excellent! Good Initiative of Children. Well Done! All the best for kids & Teachers.

It was a nice exposure to the students. Well done teachers.

Kids are prepared thoroughly. They are confident in sharing. They are learning a lot.

All kids models is very nice credit good job.

Very well organized & well executed. Thanks to the teachers for encouraging able to participate. Kids are wonderful with their project & creativity. Thanks.

Awesome work done by Sandesh & Teachers. very happy. Shubh

Great presentation, well done kids!!!

A very well organized event where every topic presented by children is excellent and very simple to understand. Thank you

Very well organized & presented by all the students.

Very good work. 😊

Very good work - good presentation

Nice Show of Kids Talent All the Best 😊

Very nice show put up by kids. Good effort. Great learning. We are really happy. Could have been played. - Divya (Lathasri)

* Great performance by kids. They were enthusiastic. Display well has been presented in very simple and clear. - Sujatha S.

Deepawali Celebration

30th October, 2024

Our school celebrated Deepawali on 30th October, by organizing special assembly where children sang and danced to devotional tunes. Children also painted and decorated earthen diyas which they carried home to gift their loved ones.

Kannada Rajyotsava

12th November, 2024

Kannada Rajyotsava, the 69th formation day of Karnataka, was celebrated with great enthusiasm and fervor at Deeksha STEM School, Judicial Layout Campus on November 12th 2024. The event aimed to promote Kannada culture, language and traditions. We were honoured to have Mr. Nagesh who is a part of our esteemed parent community as our guest for the day.

Students of different grades presented various cultural performances, including folk dances and music demonstrating Kannada folklore. The tiny tots presented a fancy dress showcasing famous personalities of Karnataka. Mr Nagesh and our principal maam Ms. Roopashree M N delivered inspiring speeches on the importance of Kannada language and culture.

Children's Day

14th November, 2024

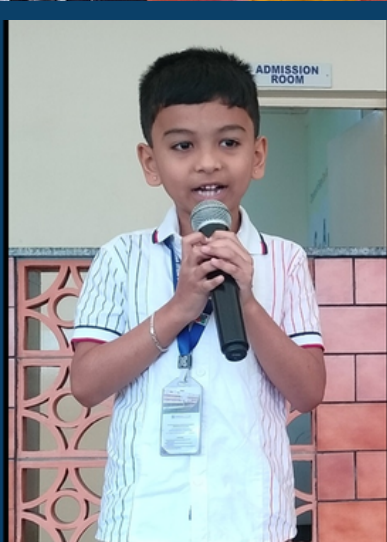

Fun, laughter, music, dance, drama, movie, sweets, games - you name it you have it. Children's day witnessed all these specialties to make the day memorable for our children.

14th November is a day that brings the sense of nostalgia into everyone's mind. A day where students wear something other than the regular uniform. A day when students' hearts are filled with the sense of joy and happiness. A day when teachers perform and students are the audience. A day when homework is not allowed. Every year Deeksha STEM School does something different. This year was no exception. The day started with our honorable principal ma'am addressing us. The teachers sang songs, did a little play, danced and made us feel special.

In the classroom all of us shared and ate our snacks. We also played games like musical chairs, dumb charades, danced and sang songs. The students were given cakes to eat. Primary grades had a movie time where they watched the famous movie Charlie and the Chocolate Factory. The students enjoyed the day which was memorable for them. This year Deeksha has continued the streak of being creative every year in such celebrations. The teachers gave us such a good time to remember and when we grow up, we will look back on these wonderful days and feel a sense of nostalgia.
